One out of every three girls will be sexually assaulted by the age of 18.

Unintended Consequence of Internet Pornography Are Engulfing our children!

Eleven years old is the average age when our children are being exposed to internet pornography. 80% of our children fifteen to seventeen are having multiple hard-core exposures!

Our young ladies are coming to us so trapped by the unwanted consequences of internet porn.

Pornography sketches perverted images into the minds of men, women, and children. Many will act out these images in real life on some innocent victim. The pain and suffering thrust on the young ladies here at our Teen Challenge is overwhelming.

Their school work, family relationships, and friendships suffer.

34% were **unwanted** exposure! Every second about \$3,075.64 is being spent on pornography.

“Internet Pornography statistics become outdated very quickly, especially in the Internet environment where numbers change daily”, says Preserving Family Values in a Media Driven Society Pornography Statistics Site.

One out of every three girls will be sexually assaulted by the age of 18. Most any day at Teen Challenge of New Mexico, we are helping a young lady receive healing through the power of Jesus Christ. He came to heal the broken hearted. It is *only through Jesus Christ* they can be made whole people able to function with purpose in life.

Jesus changed their confusion into confidence, worthlessness into valuable, loser into a conqueror!
